Ces licences sont des add-ons :

CMC (Managed Connector)

Le service Managed Connectors met en place des connecteurs dédiés pour les organisations, offrant une IP statique pour renforcer la sécurité et faciliter le contrôle des accès.

SASE SW GBW (à ajouter sur une offre Edge Connect SD-WAN ou individuellement) par pallier de 10M

Assurez une protection SWG depuis n'importe quel site, succursale ou emplacement distant grâce à des tunnels sécurisés, sans nécessité d'installer un agent. La bande passante SWG couvre toutes les fonctionnalités de sécurité web et est facturée en fonction de la consommation, plutôt que par utilisateur.
